1. Events

- Equity Financing.** If an Equity Financing occurs before termination of this Safe, this Safe shall automatically convert at the initial closing of such Equity Financing into the number of shares of Safe Preferred Stock equal to the Purchase Amount divided by the Conversion Price. The Investor shall execute the transaction documents applicable to purchasers of the Standard Preferred Stock, provided that such documents contain customary exceptions for Safe holders concerning representations, warranties, liability and indemnification.
- Liquidity Event.** If a Liquidity Event occurs before termination, the Investor shall automatically be entitled, subject to Section 1(d), to receive immediately before or concurrently with the closing of the Liquidity Event the greater of: (i) the Purchase Amount (the "Cash-Out Amount"); or (ii) the amount payable on the number of shares of Common Stock equal to the Purchase Amount divided by the Liquidity Price (the "Conversion Amount"). The Company may satisfy the obligation in cash, securities or the same form of consideration payable to holders of Common Stock, subject to applicable law.
- Dissolution Event.** If a Dissolution Event occurs before termination, the Investor shall be entitled to receive the Cash-Out Amount, due and payable immediately prior to completion of the Dissolution Event.
- Priority.** In a Liquidity Event or Dissolution Event, this Safe is intended to operate like standard non-participating preferred stock. Payment of the Cash-Out Amount ranks: (i) junior to outstanding indebtedness and creditor claims; (ii) pari passu with other Safes and preferred instruments of equal priority, with pro rata reduction if proceeds are insufficient; and (iii) senior to payments on Common Stock. The Conversion Amount ranks pari passu with Common Stock and other securities receiving proceeds on an as-converted basis.
- Termination.** This Safe shall terminate automatically, without prejudice to prior breaches, upon the earliest of: (i) issuance of shares following conversion in an Equity Financing; or (ii) payment or setting aside for payment of amounts due in a Liquidity Event or Dissolution Event.
